

KS1 Castles Knowledge Organiser

Term 1

National Curriculum Objectives:

- Create products using levers, wheels and winding mechanisms
- Demonstrate a range of cutting and shaping techniques (such as tearing, cutting, folding and curling).
- Design purposeful, functional appealing products and others based on design criteria.

Key vocabulary

Word	Meaning
Well	A hole dug in the ground to get water.
Lever	A bar used to move something.
Wheel	A circle shaped object that can roll.
Pulley	A simple machine that makes lifting easier.
Machine	A thing created by people to make things easier.

Sticky Knowledge:

Levers, wheels and pulleys can move things.

A well is a hole dug in the ground to get water.

Some castles used wells to get water.

Materials can be shaped by cutting, folding, tearing and curling.
